

Covid-19 Policy

Funtastic Kids recognises that careful planning is essential in order to keep the children and staff safe, and to limit the spread of coronavirus/Covid-19, within our setting. Accordingly, we have conducted a thorough Covid-19 **risk assessment and Contingency Plan** and will review it on a regular basis and whenever Government guidance changes.

Covid-19 symptoms

Covid-19 is a viral, respiratory disease, which is spread from person to person by close contact. It typically causes fever and a dry cough, and in some cases may progress to viral pneumonia which cannot be treated by antibiotics. Symptoms of Covid-19 can include:

Continuous dry cough	Sore throat
Fever (high temperature)	Tiredness
Difficulty breathing	Loss of taste and smell

The initial symptoms are similar to colds and flu-type illnesses, but the combination of a recent onset of fever and a new continuous cough seem to be present in many cases of Covid-19. However, it is important to be aware that in some cases the symptoms may be very mild or even non-existent, especially in children.

Procedure for infection or suspected infection

Any child who becomes ill with symptoms which could be Covid-19 while at the club/camp will be isolated from the other children by at least two metres until the child can be collected by his or her parents. A member of staff, wearing PPE will stay with the child. If the child becomes seriously ill, we will call 999.

If a child or member of staff has suspected symptoms of Covid-19, they will be sent home and must follow the Government guidance for households with possible Covid-19 infection. This includes self-isolation and taking a Covid-19 PCR test. See: <https://www.gov.uk/government/publications/covid-19-stay-at-home-guidance/stay-at-home-guidance-for-households-with-possible-coronavirus-covid-19-infection>

The club/camp will remain open unless or until advised otherwise by the local Health Protection Team. Parents and staff will be informed if Public Health consider there to be an outbreak.

If children or staff test positive for Covid-19, they must not attend the club/camp until the NHS Test and Trace recommended isolation period is up and all symptoms have passed and they feel well.

Infection control

Like the common cold and flu viruses, Covid-19 is spread by:

- Infected people passing the virus to others through large droplets when coughing, sneezing, or even talking within a close distance.
- Direct contact with an infected person: for example, if you shake or hold their hand, and then touch your own mouth, eyes or nose without first washing your hands.

- Touching objects (eg door handles, light switches) that have previously been touched by an infected person, then touching your own mouth, eyes or nose without first washing your hands. Viruses can survive longer on hard surfaces than on soft or absorbent surfaces.

We will take the following steps to reduce the risk of catching or spreading Covid-19 at the Club:

Hygiene:

- Staff and children will wash their hands as soon as they arrive at the Club, and will be reminded to wash their hands regularly throughout the session, especially after using the toilet, before eating food and after coughing or sneezing.
- Hand sanitiser will be available for adults to use.
- We will have tissues readily available for use when sneezing and coughing, and these will be disposed of, in a bin, immediately after use.
- If they don't have a tissue to hand, children will be instructed to cough or sneeze into the crook of their arm.
- We will discourage children from touching their faces.

Cleaning:

- We will ensure that frequently-touched surfaces are cleaned regularly
- Toilets and sinks will be cleaned before and after each session.

Arrivals and departures:

- Parents will now drop and collect their children from outside the Club buildings.
- Parents will wait outside the building until staff have ensured their child has collected their belongings and is ready to go.
- A member of staff will sign the children in and out, in the presence of the child's parent on the club iPad.

Premises

- Doors and windows will be kept open where safe to do so, to keep the premises well ventilated. Thought should be given to maintaining comfortable temperatures.

Food:

- Staff and children can now make snacks and food together
- In clubs and camps, children will now prepare and make food together as part of the creative activities.

Promoting good practice

We will promote infection control through the methods above, and in addition we will:

- Ensure that all staff have received training in, and understand, our new procedures
- Display posters and information to promote infection control (provided by schools)
- Ensure that adequate supplies of cleaning materials are available within the club/camp
- Dispose of waste promptly and hygienically
- Provide tissues and suitable facilities for their disposal

- Encourage staff to take part in lateral flow testing twice weekly, sending results through to managers
- Encourage staff to have the vaccine when they are offered it.

Closure (Please see our Contingency Plan)

We may need to temporarily close the Club/camp if we have insufficient staff due to illness to run sessions safely. If this occurs the manager will contact the relevant local authority for further support and guidance.

In the event that we have a number of confirmed cases of Covid-19 associated with the Club/camp, we may need to close if advised to do so by the local Health Protection Team in order to limit the spread of the virus.

If the Club/camp needs to close, the manager will notify parents or carers as soon as possible. The manager will also inform the local Early Years or Childcare service as well as other relevant parties, eg schools, other users of shared premises, etc. The manager will also notify Ofsted of the closure.

Useful contacts

Ofsted: 0300 123 1231

Health Protection Team (HPT): 0344 225 3861 (option 1 to 4 depending on area)

Managers have the correct forms and contact forms for reporting to the appropriate Local Authority.
